DETAILED ACTION

Response to Amendment

The rejection under 35 U.S.C.103(a) over claims 1-27 in the last office action is hereby withdrawn in view of Applicant's arguments. However, a new ground of rejection is cited herein in view of the IDS filed 6/2/2003.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 27 and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0203438 of record on 1449.

The reference discloses a polythiophene of the formula (see cols. 3-4, claim 1) in that if R2=R3 and R1=R4 in the reference and b=0, d=0, then the reference and the claim have the same or similar formula.

Claim 2 of the reference discloses the conductivity of said polymer, corresponding to this of claim 28.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by EFFENBERGER et al of record on 1449.

The reference discloses the same or similar formulae with claim 1 (see formulae 3, 4a, Scheme 2).

Claims 3-4 are allowed.

Claims 5-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
